ACE Builds Gender Diversity in the Industry

At ENR, we are proud to have a 14th Annual ACE Mentor Yearbook. This year's yearbook features a special advertising section that highlights the achievements of students and mentors in the fields of architecture, construction, and engineering. The yearbook is a testament to the hard work and dedication of the ACE Mentor Program participants and their mentors.

ACE Mentor Program is a national organization that provides a unique opportunity for high school students to gain hands-on experience in the construction industry. The program is designed to help students explore their interests and develop the skills and knowledge needed for a successful career in the industry.
