
[INTRODUCTION]

The Construction Industry Confidence Index (CICI) Survey results provide an important insight into the current and future health of the construction industry. The AEC community, owners and others who follow this important sector of the economy benefit from ENR's conducting and reporting on the results of the CICI survey each quarter. Executives from firms like yours responded to the previous CICI survey, with the results reported in the July 1 issue of ENR. Your response to this CICI Survey will help ENR provide your firm and others with valuable insights regarding the outlook for the construction industry.

Everything you provide in the survey will be kept completely confidential. We are attempting to gauge the overall views of the industry as a whole, and not of individual firms. Nothing you answer in this survey will be published except in the aggregate. We plan to publish the results of this CICI survey in the Third Quarterly Cost Report in the September 30 issue of ENR.

Please do not use the back button on your browser. You should use "Back" or "Next" to navigate through the pages. The deadline for this survey is **Monday, September 16th, 2024**. As an industry leader, your views are valuable both to ENR and the industry as a whole. We look forward to hearing your views and thank you for your time.
